

The fire escape plan is an important step in ensuring the safety of the members of the Port Colborne Bocce Club. Here's is the fire escape plan that considers there are three doors in the Bocce Club Hall:

1. Map out the club's floor plan, showing the locations of the three exit doors(all visible from hall) and the locations of fire extinguishers and fire alarms.
2. The meeting point outside the building where everyone should gather in case of an emergency is across the parking lot road to the field.
3. Assign specific responsibilities to staff members, such as calling 911, aiding people with mobility issues, and ensuring that everyone has evacuated.
4. Train staff and members on fire safety procedures, such as using a fire extinguisher and how to safely evacuate the building.
5. In case of a fire, sound the fire alarm and evacuate the building at once using the nearest exit.
6. If one exit is blocked or inaccessible, use one of the other exits.
7. If there is smoke in the air, crawl on your hands and knees to avoid inhaling smoke.
8. Once outside, gather at the designated meeting point and account for everyone who was in the building.
9. Do not re-enter the building until given permission by the fire department.

Remember, fire safety is a team effort. Everyone in the Port Colborne Bocce Club should work together to ensure the safety of all members and guests.
